New York Stock Market

c.ew York, May 9.—After a slight depression in the early trading, followed by an upturn which put the Harriman stocks and a few others a point above yesterday's close, the market came almost to a halt to-day. In one hour only \$,000 shares were traded in. The movement as a whole was without importance, and served merely to emphasize the lack of demand for securities and the reluctance of chance traders to take a definition of the contract of th position in the market at this

Failure of the market to respond to yesterday's brillant crop report encouraged bear traders to put out new lines at the outset, but they were unable to bring out long stock, keryl quickly reversed their positions. The case with which the market railied indicated a strong undertone, but this apparently was due to nothing more

incleated a strong undertone, but this apparently was due to nothing more than a sold-out condition.

The prevailing spirit of conservation found further justification in the news of the day. Forecasts of the quarterly United States Steel report indicate a considerable falling off in orders. Lower pig iron prices were quoted, and in other branches of industry a slowing down was reported. The emphatic vote by which the tariff The emphatic vote by which the tariff bill passed the House, and the situation arising from California's stand on the Japanese question, were influstricting speculative activity. There was some further pressure against standard investment shares, such as

In speaking of her plans for the immediate future, Mrs. Thaw said:

"I intend to return to the stage shortly, although I am not overjoyed at the thought. I really don't want to go back to it, but I must make a living somehow, and then I have my boy to support for a long time. The New York and London managers have been asking me to return to the stage for some time. They have held out promises of a large salary, and now it has come to the point where I must accept."

LITTLE BUSINESS DONE ON EXCHANGE

Brokers Have Nothing to Do But Discuss Condition of Market.

BY BROADAN WALL.

New York, May 9 .- Business on the oor of the Stock Exchange has reached n almost irreducible minimum, with he result that stockbrokers formed emselves into a committee of the thole to discuss any and all subjects hat may influence prices, but so far Tariff discussion is worn threadbare,

nd anyhow no longer has any influence prices. In former times a governent crop report was a subject of speclation for the time being; although a undamental, it is not a market facor. The report of the Copper Producers' Association was either not be-leved or disregarded. The reader may ake his choice. Therefore the state-nent of the United States Steel Cororation, showing a decrease of un-iled tonnage, may very likely be dis-missed before it is issued, as a market

The opinion of the average stockbro er has little value at this time. Nine ut of ten will assail you with this uestion: "What do you see" Your nswer is: "I see nothing but dullness." nd when you come back with the ques-ien: "What do you think?" come back ith the reply: "I don't." Such periods of extreme dullness have

Such periods of extreme dullness have trequently been followed by activity and a turn in the market for the better, and it is not improbable that the currency bill will restore confidence. In fact, the improvement in the bond market already noticed is attributed to this influence, and if there is one sign that may be logically expected to precede a return of speculative interest, it is a demand for investment bonds. Underwood Typewriter displayed weakness on small offerings. This concern has placed a high value on good will. The American Beet Sugar re-port shows the effect of the over-pro-UKN I SAGE duction of sugar, plus the discussion of tariff changes. Probably the worst is now known, and the stock should show some improvement. Pennsylvania were Evelyn Nesbit Thaw and "Pom." She then became the centre of
